### POLICE MATTERS.

POLICEMEN CHARGED WITH BEING THIEVES-AN OLD POLICEMAN-SERIOUS CHARGE AGAINST

Commissioner Bosworth yesterday listened to the complaints against policemen. Patrolman Stephen Rockwell of the Sanitary Squad was complained of by Sanitary Inspector Moreau Morris for neglect of duty, in allowing night-soil to be dumped on the dock, instead of into the beats, and also failing to report the dripping of night-soil from the carts on the street. He was also absent from his post for one hour. The doctor also thought that Rockwell was intoxicated, but was not certain; he merely staggered, but this might have been the result of his extreme age. The officer said he saw nothing of the offense complained of, and remarked that it was discretionary with him to leave when the work was done, that he was on duty generally from 10 p. m. to 4 a. m., and lenied having drank anything on the night in question

denied having drank anything on the night in question. The officer is 73 years of age, is feeble, and will probably soon be retired on half-pay.

Sergeant James Looney of the Eighteenth Precinet was complained of by Mr. Augustus D. Falling for sending an officer on post near his residence very much under the influence of liquor. Mr. Failing's watch was stolen, and he having caught the thief and handed him over to the officer, the latter was too drunk to retain the thief, and he escaped. Mr. Failing then went to the Station-House and complained to the Sergeant of the officer, but the Sergeant again sent Little on the post. A large number of witnesses were introduced to prove that Little was sober, and that they did not hear the complainant call the attention of the Sergeant to Little's condition. Since that time Little has resigned from the Department on another serious charge. The case was referred to the Board.

Patrolman Robert Gunson of the Broadway Squad was Patrolman Robert Gunson of the Broadway Squad was charged by Ulrich Signer of Seventy-first st. and East River, with having stolen from him a silver watch, while he hay asleep on some rocks in Forty-sixth-st, near the East River. He swore that he felt some one feeling in his pocket, awoke, and missed his watch, and, seeing Officer cimson standing near him, and no one cise hear by, he accused the officer of having taken his watch. The officer told him to remain, and he would get him his watch, He refused to do so, and the officer then knocked him down, and afterward, raising a stone, threatmed to throw it at him. A humber of witnesses were introduced, from whose evidence it appeared that the complainment was very drunk, and had been asleep on the rocks for a long time. Two men were seen to stoop the complainant was very drunk, and had been askeep on the rocks for a long time. Two men were seen to stoop over Urieh, and after a moment the latter partially arose and was pushed down by one of the men. The complainant again sot up, and the men ran away, fol-lowed by the former. After running a short distance, one of the men turned and knocked him down, kicked him, leaped upon him, and then ran off. His companion also kicked Urieh while down. The officer, from his own statement and that of others who witnessed the affair, it appeared on being told of the assault and robbery, ran out of his house, and, meeting the complainant, asked statement and that of others who witnessed the affair, it appeared on being told of the assault and robbery, ran out of his house, and, meeting the complainant, asked him if he had been robbed. He said he had. A daughter of the officer, then coming up, told her father that the thieves were near his (the officer's) residence, a short distance away. He told the complainant to wait there for him, and he would arrest the men and recover the property. The complainant refused to do so, and while arguing with him the thieves got away. Subsequently the complainant, meeting the officer on the street while talking with some officers of the Nineteenth Precinct, accused him of having taken his watch. There seemed to be no question but that the officer had done his best to be no question but that the officer had done his best to secure the thieves, and for his exertions was accused of being the thief. The case was referred to the Board.

Commissioner Manierre listened to a charge of attempt at burglary preferred by W. S. Matthews of No. 26 East Seventeenth-st., against Patrolman Horace Gaylordlof the Eighteenth Precinct. It appeared that on the night of June 2, the officer saw a light burning in the apartment of a Mrs. Funk, in the house adjoining the complainant's. Thinking something was wrong he tried the hall door, found it ain, and on entering found Mrs. Funk askeep on a lounge. On his entrance she awake. He explained his errand, and together they proceeded to the roof, where they tound the scuttle open. Gaylord tried the scuttle of Matthews's residence and found it fast. In order to obtain more evidence, the case was adjourned until Monday.

Later in the day the Commissioners dismissed patrol-

RELIGION IN EUROPE.

The prayer-meeting last night in Plymouth Church, Brooklyn, was attended by a large number of peo-ple. At the request of the pastor, the Rev. Henry Ward Beecher, Prof. Robert R. Raymond, who has just returned from Europe, gave a brief sketch of the state of religion in Italy. He said that the Romans were more ignorant than themselves on the acts and doings of the Geumenical Council. When he considered the whole affair it made him and, mad, mad, and he felt as though he wanted to blow the whole affair up to the skies—[Mr. Beecher—In the right direction, certainly. (Laughter)]—though he (Mr. Raymond) was afraid they might come down again. In Rome he found that there were influences at work combined with a germ of renovation which would spring up in time. The Sunday-school movement languishes, and it is almost unknown in Southern Italy.

Mr. Beecher said that in looking over Europe the prospect of the advance of religion was anything but assuring. They might look at Europe and see great picty there, but underneath lay a deep feeling of skepticism. Religion was an organized ritualism, and a ceremonial religion. There was nothing to choose between the old Jewish and the Pugan practices, and they were the sources of ritualism. Bitualism and skepticism seemed to advance as education spread. Everything seemed to be resolved into an organism, and one of the most startling problems was the organization of men for their benefit. There is no doubt that they will initiate a regular campaign, and there will be some tremendons revolution in time. Beecher, Prof. Robert R. Raymond, who has just returned

time.

They should all endeavor to prevent this world from becoming a second Babylon. Their God was Mammon, and their trouble as a nation was the love of money; but their brethren in Europe were troubled with more important and more weighty considerations and problems than they were.

UNION OF BROOKLYN PRESBYTERIAN CHURCHES. A movement for the consolidation of the Second and Third Presbyterian Churches of Brooklyn has been some time in progress. Its origin was in conse quence of the rapid decrease of the membership of the Third Presbyterian Church (N. S.) in Jay-st., near High, caused by the removal of families connected with the church to remote localities. The trustees of the society a few months ago had under consideration the improve-ment of the church, and appointed a building commit tee, who learned that no adequate improvement could be effected at a less expenditure than \$10,000, which was felt to be beyond the means of the society. Presbyteries will be readjusted. The Second Church has been in the Nassau Presbytery, and the Third in the Brooklyn Presbytery, so that some formal action is necessary for relocating the Churches. The Second Church has been without a regular pastor for four years, previous to which time the Rev. Nathaniel West officiated. The Rev. Joseph Greene is pastor of the Third Church, and will continue as pastor of the United Church, which will worship in the edifice on Clinton-st., near Fuiton, after the formalities of consolidation.

BOSTON, MASS. REORGANIZATION

DALE MANUFACTURING CO.,

Office 217 Church-st., N. Y. The undersigned is now reorganizing the DALE MANUFACTURING CO., under an INCREASED CAPITAL, for the purpose of manufacturing more extensively that class of goods which has proved so profitable to the manufacturer of Karope and of this country, when the capital employed has been quasi to the requirements of the business.

The firm of THOMAS N. DALE & CO., of which he was senior partner, having settled with their creditors, will go into liquidation; this will enable him to give his undivided attention to the manufacturing business, bringing to it has 30 years' experience as an importer, and a valuable business connection in that class of goods which the Company produce.

This is not an untried project. The Company have constructed in Paterson, New Jersey, one of the best and most audatuatial Milk in the country; its well supplied with developes.

## SILK MANUFACTURING BUSINESS.

Experiments have been made, and the cost of product determined on all the articles which it is intended to manufacture.

Impraved and patented machiner; for SILK THROWING, which will do much towards counterfusiancing the chesp labor of Europe, even with dinomished protection. Is exclusively at the disposal of the Company. These advantages, together with the organisation of the mili and the perfected system of economy. In councellon with the advantage of selling many of its own goods, give it a guarantee of success, and of remaneration for capital beyond the ordinary manufacturing business of this country.

The systems goods, interchinging in the various qualities of real and and deferent goods, interchinging in best advantage, thus working up all the various qualities of real materials.

As before infuncted, a Commission House will, be established under the same of the Company's manufacture, but such other goods as will make a all assortment for the supply of Johhers and large consumers.

Being somable of the present stagration of business, and not nominaful of the heavy losses sustained during the past three years by the largest portion of houses engaged in importing, jobbing, or manufacturing, the undersigned does not hesitate to say that with sufficient capital to carry and one continue the plans, organization, and system of manufacture as all one of the plans, organization, and system of manufacture as
